Installation: For this installation (the guitar in the video above), we're using a 3-Way switch, although any switch will work. The Bridge pickup is wired direct to the switch, and the Neck pickup is going to the Push Pull pot, above before coming to the switch. The Blender Pot is being wired into the first lugs on each side (follow the arrows to make this work).

Fralin Pickups: Phase Reverse With Blender Pot Modification

the tele wiring i am most tempted to try is the one where you have master volume knob closest to the pickup (for easier swells), then a blender pot on the middle knob to merge the pickups and then two values of resistor (say, 250k and 100k) wired to the 3-way switch for the tone control options ... i think this would provide a lot of variety and if the pickups were rw/rp, you'd get hum ...
