back up as per the FANUC instructions. It all goes ok until it asks me to back up sram data.... it asks for "Yes or no", when I hit the soft key yes nothing happens! I have tried different cards but with no luck. All these cards do however work with the machine when reading and copying program files ...

Harrison Alpha 330 lathe Fanuc 21it SRAM back up problems

The panel on the lathe does not have a full keyboard, the screen is touch. You only do single operations directly on the lathe, but you can import programs from a pc. When I start it up it displays "Fanuc-cnc V3.20 V1.54" for 2 seconds. In the manual it says Fanuc 21it. There is a floppy disc with Alpha link v1.21 written on.

Hardinge Fanuc Programming Manuals

The turret stroke and the width of the door opening are the same as those of the [X-100]. Still, this machine is 15% smaller in width. In addition, while pursuing a space-saving machine, cuttings chips can be discharged smoothly as a result of designing a cutting chips discharge opening that is 2.2 times wider and slant head in design.

Space Savings in Production Lines Due to the turret and slide structure, the width of the machine with the loader transfer has been cut to 1,595 mm, the smallest in the class. (25% smaller than existing models) This reduces the workpiece transfer distance from the machine to peripheral devices, allowing the width of the production line to be reduced. Shorter Machining Cycles A 7.5/5.5 kW ...
