restricted mandibular movement, and noises from the temporomandibular joints (TMJ) during jaw movement.

Temporomandibular joint dysfunction - Wikipedia

Management of Masticatory Myalgia and Arthralgia . James R. Fricton Eric L. Schiffman . Myalgia and arthralgia refer to muscle and joint pain disorders, respectively. When these disorders involve the masticatory muscles, the temporomandibular joint (TMJ), or both, they are collectively called temporomandibular disorders (TMDs). 1 TMD pain is typically felt in the jaw, temple, ear, and face.

22. Management of Masticatory Myalgia and Arthralgia ...

Temporomandibular disorder (TMD, also termed "temporomandibular joint pain-dysfunction syndrome") is pain and dysfunction of the TMJ and the muscles of mastication (the muscles that move the jaw). TMD does not fit neatly into any one

Diagnosis and Treatment of Temporomandibular Disorders ...

Masticatory muscle injury can occur as a result of acute muscle strain or direct trauma. Soft tissue injury results in bleeding, inflammation, and swelling, which causes myalgia, muscle spasm, muscle splinting, or myositis. 74 Myofascial trigger points may develop in many locations within the muscle and are considered 75,76 to be the primary source of the muscular pain.
