Penrose and Katz Writing in the Sciences - Exploring ...

Writing in the Sciences combines a descriptive approach—helping students to recognize distinctive features of common genres in their fields—with a rhetorical focus—helping them to analyze how, why, and for whom texts are created by scientists. Multiple samples from real research cases illustrate a range of scientific disciplines and audiences for scientific research, along with corresponding differences in focus, arrangement, style, and other rhetorical dimensions.

Writing in the Sciences: Exploring Conventions of ...

Although experimental reports are the most obvious form of science writing, writing in science serves a number of different purposes, so different forms of written work are needed. This handout focuses on writing that reports results of scientific studies, but mentions other kinds of assignments that students may encounter. Experimental reports. The format for an experimental report differs somewhat among science
